P. Grieveson, PhD  
Professor of Applied Metallurgy

30 July, 1991

The Consul,  
Iranian Consulate,  
London.

Dear Consul,

**Dr. Mohammad Ali Meshkot**

I wish to certify that Mohammad Ali Meshkot commenced study as a research student in this Department in October 1985 under my supervision. He proved to be a most diligent and conscientious student and completed some excellent research. Due to difficulties with arranging a suitable time for the oral examination with the internal examiner, completion of the degree was delayed considerably. However, I am delighted to report that Ali Meshkot completed his oral examination on May 10th, 1991. The examiners have recommended award of the degree of Doctor of Philosophy and the University will ratify this result soon.

Yours sincerely,

P. Grieveson  
Professor of Applied Metallurgy
